

<b>Filtration class:</b>	ISO 16890 ePM1, ePM2,5, ePM10 and coarse G4-F9, according to EN779 (2012)
<b>Material:</b>	G4/M5 — Synthetic with Bi-co fibers blended with solid PET fibers M6-F9—Micro-glass and PET fibres
<b>Media:</b>	G4—Pleated M5-F9—Minipleated
<b>Frame material:</b>	ABS plastic
<b>Temperature:</b>	max. + 80 °C
<b>Header frame:</b>	25 mm

Size	Depth
Available in any size!	100 mm
	150 mm

The panel filter itself is environmental friendly, as a result of the easily disposable plastic frame and the synthetic filter media. The frame is rigid, and the media is highly moisture resistant, which makes the whole filter very durable and suitable for demanding environments. The filters large media area assures a very high dust holding capacity.

**G4:** coarse filter—design for pre-filtration

**M5:** medium class filtration used as pre-filter or final filtration

**M6-F9:** fine dust filtration, in HVAC systems — eg. in offices
