

- Filtration class:** ISO 16890 coarse—ePM2,5 55%
- Material:** PET fibres and carbon
- Material thickness:** 1,4 mm
- Media:** Pleat (coarse) (without glue separators)
Minipleat (with glue separators)
- Frame:** ABS plastic
- Header frame:** 25 mm

Size	Depth (with header)
Available in any size!	48 mm
	96 mm
	150 mm

The panel filter itself is environmental firendly, as a result of the easilly disposable plastic frame and the syntethic carbon filter media. The frame is rigid, and the media is highly moisture resistant, which makes the whole filter very durable and suitable for demanding environments. The filters large media area assures a very high dust holding capacity, an absorbs gas and odors effectively.

Carbon filters can be used at for example airports, museums, microelectronics industry or display productions.
