

<b>Filtration class:</b>	ISO 16890 coarse—ePM2,5 55%
<b>Material:</b>	PET fibres and carbon
<b>Material thickness:</b>	1,4 mm
<b>Media:</b>	Pleat (coarse) (without glue separators) Minipleat (with glue separators)
<b>Frame:</b>	ABS plastic

The panel filter itself is environmental friendly, as a result of the easily disposable plastic frame and the synthetic carbon filter media. The frame is rigid, and the media is highly moisture resistant, which makes the whole filter very durable and suitable for demanding environments. The filters large media area assures a very high dust holding capacity, and absorbs gas and odors effectively.

Carbon filters can be used at for example airports, museums, microelectronics industry or display productions.

Size	Depth
Available in any size! NO header frame!	48 mm
	96 mm
	150 mm
